SUMMARY

Computer Science Engineering undergraduate (Class of 2027) with hands-on experience in Java, Python, C++, data structures and algorithms, object-oriented programming, and full-stack development. Built AI-enabled computer vision, secure real-time communication, and MERN applications using REST APIs, SQL/MongoDB, Git, and cloud platforms. Strong analytical problem-solving, debugging, teamwork, and continuous learning abilities.

EDUCATION

VIT Bhopal University

Bachelor of Technology in Computer Science and Engineering | CGPA : 8.64

Bhopal, MP

Aug 2023 – Present

TECHNICAL SKILLS

Programming Languages: Java, Python, C++

Web Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs

Databases: MongoDB, SQL, SQLite, OpenCV, OCR (Tesseract)

Tools & Platforms: Git, GitHub, AWS, Azure, MATLAB

Core Concepts: Data Structures, Object-Oriented Programming

PROJECTS

Secure Voice Calling System | Java, WebRTC, WebSocket, SQLite, WireGuard VPN

Jan 2026 – May 2026

- Developed a secure web-based voice calling system with encrypted real-time communication.
- Implemented authentication, call initiation, accept/reject, and automatic signaling features.
- Integrated WebRTC and WebSocket for peer-to-peer audio communication and SDP/ICE exchange.
- Used SQLite and REST APIs for secure user management, session handling, and call tracking.

School Management System | MERN Stack (MongoDB, Express.js, React.js, Node.js)

Jun 2025 – Aug 2025

- Developed a full-stack web application for student, teacher, attendance, timetable, and marks management.
- Designed and implemented RESTful APIs using Node.js and Express.js.
- Created responsive frontend components using React.js.
- Ensured secure data storage and efficient retrieval using MongoDB.

Automated Parking System (License Plate Recognition) | Python, OpenCV, Twilio

Aug 2024 – Dec 2024

- Developed an automated parking solution using computer vision and OCR for license plate recognition.
- Implemented vehicle entry and exit logging with real-time timestamping and fare calculation.
- Integrated QR-based UPI payment and automated SMS notifications for receipts.
- Improved parking workflow efficiency by reducing manual intervention by 40%.

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02) – AWS

Introduction to Machine Learning – NPTEL

Marketing Analytics – NPTEL

IT Support Certificate – Google

The Bits and Bytes of Computer Networking – Google

MERN Full Stack Certification – Codemithra (ETHNUS)

AI & ML – AICTE & IBM SkillsBuild (Edunet)

Microsoft Azure AI – Microsoft & AICTE (Edunet)

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Core Member, Entrepreneurship Cell (E-Cell)

Apr 2024 – May 2025

Event Management

- Planned and coordinated E-Cell events, workshops, and speaker sessions while managing registrations, logistics, venue coordination, and on-ground execution.

Sports & Leadership

2012 – 2025

College Basketball Team, Sports Prefect

- Served as Sports Prefect (2018–2019); captained the school basketball team to Haryana state-level qualification (2018); won multiple medals at National Karate Championships.

KEY STRENGTHS

Problem-solving & analytical thinking with strong communication & leadership skills.

Full-stack application development (web & real-time communication systems).

Team collaboration, event coordination, and a strategic approach to decision-making.
